0	Local Agency
31	Vendor
117	Total

Introductions Around the Room

As a way to become acquainted, please state your name and affiliation

During introductions, we would like one person from each agency, company, etc. to give the group information regarding “hot topics” about weather-related activities.

- Ideas for transportation agencies might be the status of RWIS investments, MDSS activities, connected vehicle activities
- Ideas for others might be deployment activities, new technology, weather projects
